

## Error 'Serious: No File ...docmain.log' when generating PostScript documentation

### Question:

- When trying to generate documentation of format **PostScript** in ASCET I keep receiving following error message:
  - *Error Serious: No File: <d:\ETASData\ASCET6.4\Docu\docmain.log>!*

- How can I get rid of this message?
- What do I have to do in order to being able to generate PostScript documentation?

**Answer:**

---

- ASCET uses a third party tool called MikTeX to generate documentation in PostScript format
- We have seen this error message in connection with **MikTeX versions older than 2.9** (for example version 2.8)
  - Replacing the MikTeX installation with a current version usually fixes the issue
  - Get current version of MikTeX here: <https://miktex.org/download>

**Do you still have questions?**

---

- You will find **further FAQ articles** on the ETAS homepage: [www.etas.com/en/faq](http://www.etas.com/en/faq)
- **Movies** corresponding to FAQ articles can be found on the [ETAS YouTube channel](#) as well
- Please feel free to contact our Support Center, if you have further questions.
