## Question:

- Confirmation dialog missing

- By accident, I checked **Remember my Decision** option in a confirmation dialog.

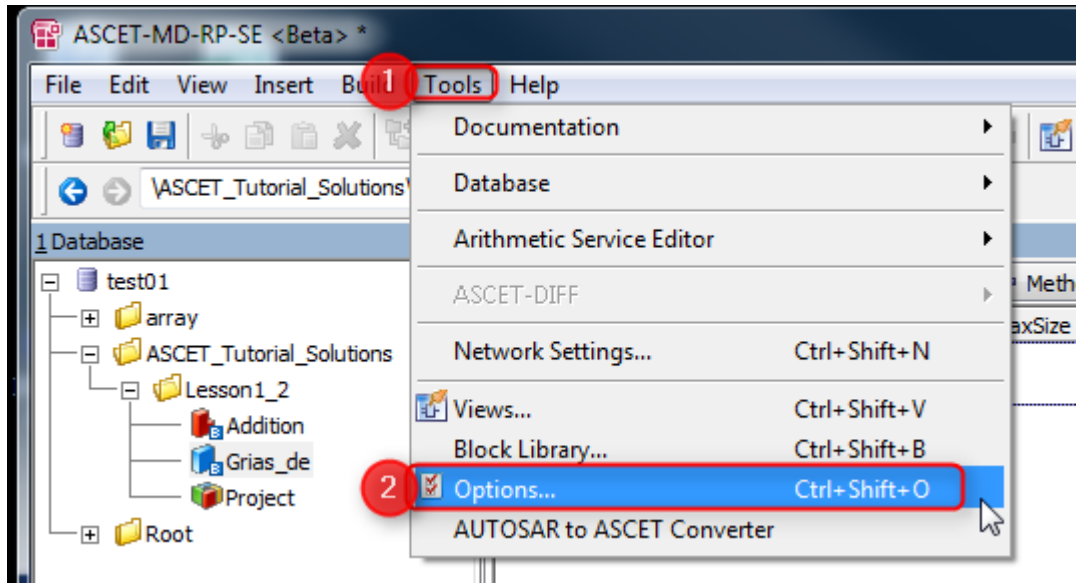

-
    - Due to this Remember my Decision setting, the confirmation dialog does not show up anymore.

    - How can I correct this setting?

- How to **show** or **hide** a specific confirmation dialog or hint dialog?

- What **confirmation dialogs** and what **hint dialogs** are available in ASCET?
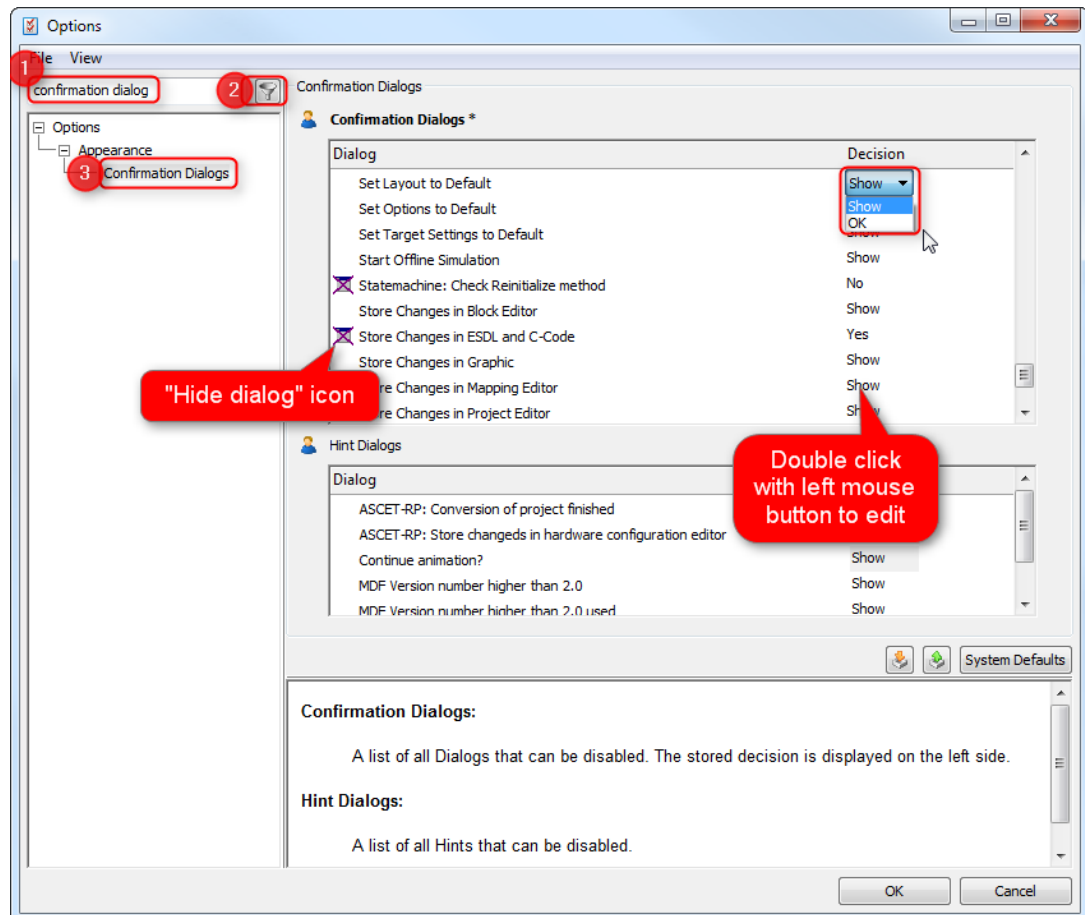

Answer:

- **Remember my Decision** means:
    - Do not ask me again

    - Do not show this dialog again

    - Hide this dialog in future

- If you want to adjust/change your decision, please follow these steps:

1. In **ASCET** > **Menu bar** > **Tools** > **Options...**

•

2. In dialog **Options > Search text field**: type "confirmation dialog" > Click **Filter** icon > In tree view (under the search text field): Click **Confirmation Dialogs**

-

- In the **Confirmation Dialogs** table: Scroll to the according confirmation dialog

- To edit the current **Decision** setting:

  - Double click with left mouse button on the current value in table column Decision

  - A drop down list will appear with the available options:

  - Option **Show** means: show the confirmation dialog to the user (where he then can decide between Yes and No)

  - Options **Yes** and **No**:

    - Hide the confirmation dialog.

    - There will be no confirmation dialog presented to the user

    - This is indicated in the Confirmation Dialog table via an icon (see "Hide dialog" icon in previous image)
