Cannot download packages for the ASCET document generator

Question:

- I cannot download packages for the ASCET document generator
- I wanted to install ASCET Docu Generator (for **ASCET V6.1**) and followed the steps provided in ASCETDocuGeneration.pdf, published in 2010
- When I try to download additional packages for the MiKTeX there is always an error message like *Bad Connection*

Answer:

- The mentioned installation guide contains hyperlinks to MiKTeX 2.8
- **MiKTeX 2.8** is deprecated and not available any more
- The download link to this old version does not work any longer

- Please:
  - Install newer or current version of Miktex
  - Install newer or current version of ASCET
- Then, use hyper links to newer or current version of Miktex
  - For example: https://miktex.org/2.9/setup
