Question:

- Is it possible to have several versions of EHOOKS installed on one computer?
- How to use multiple EHOOKS versions on the same machine?

Answer:

- Unregister and register the according EHOOKS versions every time when switching from one version to the other

- Example:
    - There is EHOOKS V4.1.**2** and EHOOKS V4.1.**3** installed
    - To switch from V4.1.**2** to V4.1.**3**: Unregister V4.1.**2**, then register V4.1.**3**
    - To switch from V4.1.**3** to V4.1.**2**: Unregister V4.1.**3**, then register V4.1.**2**

- **Unregister** EHOOKS V**<x.y>** (by executing following 2 commands in a command line interface with admin privileges)

    ```
    %WINDIR%\Microsoft.NET\Framework\v4.0.30319\RegAsm.exe /unregister
    ```

    ```
    %WINDIR%\Microsoft.NET\Framework\v4.0.30319\RegAsm.exe /unregister
    ```

- **Register** EHOOKS V**<x.y>** (by executing following 2 commands in a command line interface with admin privileges)

    ```
    %WINDIR%\Microsoft.NET\Framework\v4.0.30319\RegAsm.exe /codebase "
    ```

    ```
    %WINDIR%\Microsoft.NET\Framework\v4.0.30319\RegAsm.exe "C:\Program
    ```
