ETAS

? Question:

Is it possible to change the order of detected IXXAT cards using LABCAR-RTPC ?

Answer:

Yes, this is possible within Web Interface:

RTPC Configuration > Expert Edit

Configuration Parameter: **RTOS_IXXAT_CAN_DRIVER_ORDER**

Modi:

0 (default)	XC-16 PCIe >> XC-16 PCI >> IB200/IB600 >> USB
1	XC-16 PCI >> XC-16 PCIe >> IB200/IB600 >> USB
2	IB200/IB600 >> XC-16 PCIe >> XC-16 PCI >> USB

i Additional information:

Hint

Any IB200 is detected and ordered before any IB600 automatically. This cannot be changed.

Example:

A certain RTPC contains one XC-16 PCI, one XC-16 PCIe, one IB200 and one IB600.

Mode = 1.

This leads to the following global Board IDs:

Board ID	0	1	2	3
IXXAT Card	XC-16 PCI	XC-16 PCIe	IB200	IB600

This Configuration Parameter was introduced with RTPC V6.0.3 Hotfix 3.
